Medium Voltage Switchgear

The Recognized Leader in Quick Ship Custom Built Electrical Distribution Equipment

Offering ratings up to 38kV in both breaker and switch configurations, Sparkstone Electrical Group's medium voltage switchgear offers both flexibility and high performance in a variety of different applications. Our engineered design of the equipment can significantly reduce a project's overall cost.

FEATURES

- Rated maximum voltage 4.76 to 38kV
- Rated voltage withstand (BIL) Up to 200kV Peak
- Rated continuous current Up to 2000A
- Select designs up to 63kA RMS symmetrical RMS
- Fixed or Drawout Breakers
- Load Interrupter Switches
- Fully welded or bolt on enclosure construction
- Stainless Steel Option
- Control and distribution of medium voltage circuits
- Main-Main and Main-Tie-Main automatic transfer
- Main service disconnect
- Utility Metering
- Switching and protection transformers, motors, generators, and feeder circuits
- Pad Mounted Reclosers
- NEMA 1 and NEMA 3R offerings
