Low Voltage Panelboards

The recognized leader in Quick Ship Custom Built Electrical Distribution Equipment

Our Team takes pride in our expertise in designing and manufacturing reliable panelboards that are tailored to meet the specific requirements of your power distribution system. Our team specializes in custom-engineered panelboards that meet industry standards and your requirements. With our commitment to quality and timely delivery, you can trust us to deliver your panelboards when you need them.

PANELBOARDS

Sparkstone's panelboards stand out as a pioneering product, crafted expressly for enhancing existing and newly constructed electrical systems. This innovative approach allows for the replacement of aging and obsolete circuit breakers, all the while either leveraging the current electrical panelboard boxes, conduits, and cables or providing a new custom box to fit existing applications.
